Kethmi Kavindya

EDUCATION

CINEC Campus, Malabe | *Present*
BSc.(Hons) in Software Engineering

Rippon Girls College, Galle
2016-2022
Advanced Level in Maths Stream

QUALIFICATIONS

Diploma in English | 2024
Sri Lnaka English Language Graduates' Association

OTHER SKILLS

- Teamwork
- Communication
- Research
- Time Management

LANGUAGES

- Sinhala (Native)
- English

PROFILE

Software Engineering undergraduate with practical experience building web and mobile applications. Skilled in frontend development and database management using React, JavaScript, PHP, Firebase, MySQL, and Android. Passionate about creating secure, user-friendly software and continuously advancing my technical skills.

TECHNICAL SKILLS

Programming Languages: JavaScript, Java, PHP, Python, HTML5, CSS3, SQL

Front-End: React.js, Vite, HTML5, CSS3

Back-End & Database: Firebase, MySQL, PostgreSQL

UI/UX: Figma, Prototyping

Mobile Application Development: XML, Java, Dart

Tools: Git, GitHub, Android Studio, VS Code, XAMMP, Jira

Other: Agile/Scrum, Technical Documentation

PROJECTS

Dream Home | *2025* | *Dream Home*
HTML, CSS, JavaScript
A dynamic real estate website developed to explore properties and access detailed property information through an interactive interface.

MediRoute | *2026*
Flutter, Firebase *Download Apk :MediRoute*
The project was developed to help patients to locate essential medicines at nearby pharmacies during supply shortages using graph-based technology.

KunuLink | *2026* | *KunuLink*
React.js, JavaScript, Firebase
A smart waste collection and recycling platform. Enable users to schedule waste pickups, track collection status, and monitor collector locations, and collector management.

Digital Seettu| *Present*

This is an ongoing 3rd year group project. Developing a digital Seettu savings management system to efficiently manage savings groups, member contributions, transactions, and records through a centralized platform.

CERTIFICATIONS

Certificate Course in Python - UOM

Completed the foundational Certificate Course in Python for Beginners, offered through the Open & Distance Learning (CODL) program at the University of Moratuwa.

Basics of Python - Uniathena | 2025

Basics of Machine Learning - Uniathena | 2025

- Understanding how machine learning models learn
- Recognizing data patterns
- Making judgments with little or no human intervention

RESEARCH PUBLICATIONS

A Decentralized Full - Stack Ecosystem for Translating Undergraduate IT Research into Commercial Ventures

2026 | CINEC International Research Symposium (CIRS)

Research Team Member- Contributed to the research and development.

Self-Powered AI Wearables for Offline Emergency Diagnosis and Patient Prioritization in Low-Resource Areas

2026 | CINEC International Research Symposium (CIRS)

Research Team Member- Contributed to the research project through documentation.

EXTRACURRICULAR ACTIVITIES

Organizing Committee Member | Road to Xtreme 2.0

IEEE Student Branch, CINEC Campus | 2026

- Collaborated with team members to ensure smooth event operations and successful execution.

Competitor | IEEEXtreme 20.0

IEEE | October 2026

- Competed in a 24-hour global programming competition, solving challenging algorithmic problems.
